

## CERCHIAMO DI CAPIRE SE FUNZIONA LA GD-77 RADIODDITY

by **IW2BSF** - Rodolfo

# Radioddy GD-77

Model	GD-77
Frequency (MHz)	136-174 / 400-470
Power Output	5W
Channel	1024
Working Time	<b>18H</b>
Standby Time	48H
Battery Capacity	2200mAh
Mototrbo Tier	II
Compatible with Mototrbo	YES
Time slot	<b>DUAL</b>
Text Messages	YES

**intanto godiamoci qualche video...**

qui un collega OM che lo spacchetta , hi :

<https://www.youtube.com/watch?v=wg8WXTsUv6Q>

e qui vediamola sta radio GD-77 :

<https://www.youtube.com/watch?v=4yUS4-d3FmA>

**OK discreta radio cinese, prezzo LOW-COST eccezionale di solo 87 dollari, ma funzionera' davvero e non sara' un dione che va' su entrambi gli slot come il BIDONE di radio della Baofeng il DM-5R ?**

Si trova ora pure su e-bay !

**Finalmente, ecco i primi commenti di 2 OM americani che lo possiedono:**

A number of people locally have received this radio and I have one on the way for testing. From what I know at this point, **it works.**

The main issue is the limited number of contacts and the limited number of RX Groups (16) which appear to be required, instead of optional.

So if you want 1:1 TG to RX Group, you're stuck at 16 channels.

**There is a new firmware out, but I haven't heard whether or not any of these issues are resolved.**

**chiedo se lo usa davvero e funziona in dmr e sui ripetitori dmr:**

Yes, we're using it on our local DMR network. My call is .... (**famoso OM che fa anche video !!**)

My test unit should be here in the next few days, and I'll have more info, but I figured I'd share what I know from another ham who has his already.

**alla mia domanda se davvero e' un Tier-2 e non va su entrambi gli slot :**

Yes. **Real Tier-2.** It's working on our Motorola repeater network !

**alla mia domanda se usa lo STESSO CPS del tyt o retevis e se possibile vedere i nominativi con qualche tool tipo la md380tools :**

**Don't think it's the same CPS.** I can answer that better in a couple of days. And MD380Tools does not work on it to my knowledge.

## **PICCOLA RECENSIONE:**

### **POSITIVI :**

119 bucks delivered

3 day delivery from china !!! ( che velocita almeno negli USA ! )

**Dual band**

**Dual mode**

Quick select groups from keypad

**NEGATIVI:**

Volume is low

Manual entry only calls the talk group assigned to channel

Software is not intuitive

**Charger is Usb ( figo !!! )**
